## Lehigh Gap Area Winter Bird Feeder Watch

Date: \_\_\_\_\_ Name: \_\_\_\_\_

Address: \_\_\_\_\_

\_\_\_\_\_ Boro or Township: \_\_\_\_\_

Email: \_\_\_\_\_ Phone: \_\_\_\_\_

Weather Conditions: \_\_\_\_\_

Air Temp. Range: \_\_\_\_\_ Wind Conditions: \_\_\_\_\_

No. of Seed Feeders Used: \_\_\_\_\_ No. of Suet Feeders Used: \_\_\_\_\_

Food Type(s): \_\_\_\_\_

Seed Scattered on Ground (types): \_\_\_\_\_

Type of area where your home is located (circle one): Rural/Farm    ""Town

Development    ""Village

**Describe your property and surroundings:** (examples -- 1/2 acre of lawn surrounded by mature forest; 1 acre lot in development with other similar lawns and ornamental trees; farm house with pond, farm fields, and a woodlot nearby)

**NOTES:** (Record any observations you feel may be of interest, including other birds seen that did not visit your feeders.)

## 201: Feeder Watch Data Sheet

Record the maximum number of each species seen during the day. For example -- you saw 6 Blue Jays at 8:00 a.m., 4 at noon, 2 at 2:00 p.m., and 6 more at 4:00. You record 6 Blue Jays for the day as the maximum number seen. This may result in undercounting jays, but will avoid counting the same birds twice.

- |                                |  |
