8844 Paint Mill Road, Slatington, PA

# Our Story...

Nestled within the Appalachian Mountains between the Poconos and the Lehigh Valley, **Lehigh Gap Nature Center (LGNC)** is a nonprofit wildlife refuge and environmental education center. For decades, much of our surrounding mountain was scarred by pollution. Through the efforts of LGNC and its partners, members, and volunteers, the site has since been transformed into a vibrant haven for wildlife and people alike. Come explore and enjoy:

- *Breathtaking scenery with diverse and flourishing ecosystems*
  - *Programs, events, and self-guided learning for all ages*
  - *Our Osprey House visitor and education center*
    - *Miles of free, public trails for hiking, biking, birding, and more!*
