

Lehigh Gap Area Feeder Watch

Data Submission Form

February 9-11, 2024

Contact Information

Name: _____

Address: _____

Email Address: _____ Phone Number: _____

Date of Your Count *Please select one of the following:*

☐ Friday, February 9 ☐ Saturday, February 10 ☐ Sunday, February 11

Site Information *Please share the following information about the location where you conducted your Feeder Watch count:*

City/borough/township: _____

Type of area: ☐ Rural ☐ Suburban ☐ Urban

Please describe the property where you conducted your count:

(e.g., 1/2 acre of lawn surrounded by mature forest; 1 acre lot in development with lawns and ornamental trees; farm house with pond, farm fields, and adjacent woodlots)

Seed feeders used: _____ # Suet feeders used: _____

Type of food in bird feeder(s): _____

Type of seed scattered on the ground: _____

Please describe the weather on the date of your count: _____

Air temp. range: _____ Wind conditions: _____

Count Data Please record the **maximum number** of species seen during the day. For example, if you saw 6 Blue Jays at 8:00 a.m., 4 at noon, and 2 at 4:00 p.m., record 6 Blue Jays for the day as the maximum number seen. This may result in undercounting some species, but it will also avoid counting the same birds twice.
