Gray's sedge

Take a leisurely tour through Lehigh Gap Nature Center's native habitat gardens...

Native Sensory Garden Trail

This brochure is your guide to a fun and interactive learning experience that will introduce you to a variety of unique flora that call Pennsylvania home. As you follow the ADA-accessible paths outlined on the enclosed map, you will discover over two dozen sensory-friendly native plant species that you are encouraged to **see, smell, hear, or touch!** The sensory garden signs placed throughout the garden will help you find the plants and tell you more about them. Also look out for other sensory features in the garden, including musical instruments and please-touch tiles!

Over two dozen sensory-friendly native plants and signs!

Outdoor musical instruments!

Please-touch tiles!

About the Habitat Gardens:

Lehigh Gap Nature Center's habitat gardens feature over 200 native plant species. Each year, these gardens reveal a procession of flowering plants providing nectar and pollen for native bees, butterflies, and hummingbirds, as well as providing native vegetation for insects that form the basis of the food web. In addition to providing habitat, these gardens are a demonstration of how anyone can incorporate native plants into their own home or community landscape. Many volunteers of the Lehigh Gap Nature Center have been involved in the design, landscaping, planting, and maintenance of these beautiful gardens.

New garden volunteers are always welcome!

About Lehigh Gap Nature Center:

Lehigh Gap Nature Center (LGNC) is a member-supported nonprofit environmental education center and wildlife refuge located near Slatington, Pennsylvania. Through our efforts to revegetate a once barren and lifeless section of the Kittatinny Ridge, LGNC established the only environmental education center in the U.S. on a Superfund site. An outdoor classroom, environmental laboratory, and recreational hotspot, LGNC's 756-acre refuge annually hosts tens of thousands of local, regional, and international visitors.

Contact Us:

Lehigh Gap Nature Center
8844 Paint Mill Rd. (P.O. Box 198)
